POINT OF COMMENCEMENT  
NE CORNER OF SECTION 31,  
TOWNSHIP 18 NORTH,  
RANGE 17 EAST  
ELMORE COUNTY ALABAMA

Plat Notes:

1.The storm water discharge system within this subdivision complies with the City of Millbrook policy in that post-development discharge rates cannot exceed pre-development runoff rates. For the system within this subdivision to function as intended, all upstream development must comply with the storm water policy. Further, all drainage structures, ditches, etc., related to drainage within this subdivision must remain as they were originally constructed for post development discharge rates to not exceed pre-development runoff rates. Any changes to drainage structures, ditches, etc., must meet the City of Millbrook requirements and are subject to approval by the City Engineer.

2.All private drainage easements as shown on this plat are to be maintained by the owner of the lot or land upon which is located such private drainage easement. Failure to maintain areas as constructed and intended may result in upstream and downstream flooding and could result in civil liability. The City of Millbrook does not assume responsibility for such easements and/or ponds. No lot owner shall divert or otherwise impede the flow of water across, along and/or under said private drainage easements.

3.All utility, private drainage and private access easements shown hereon are for the use of the utility which may require them and for surface drainage as needed. These easements include the rights of ingress and egress for maintenance of the property, facilities and apparatus included therein. No permanent structure may be placed or erected over any part of any easement.

4.Without relieving any other legally responsible parties, each lot owner is responsible for instituting Alabama Department of Environmental Management (ADEM) approved erosion control measures during the construction of any improvements on said lots. In addition, builders are responsible for providing building sites free of drainage problems and shall not adversely affect adjoining properties with site drainage.

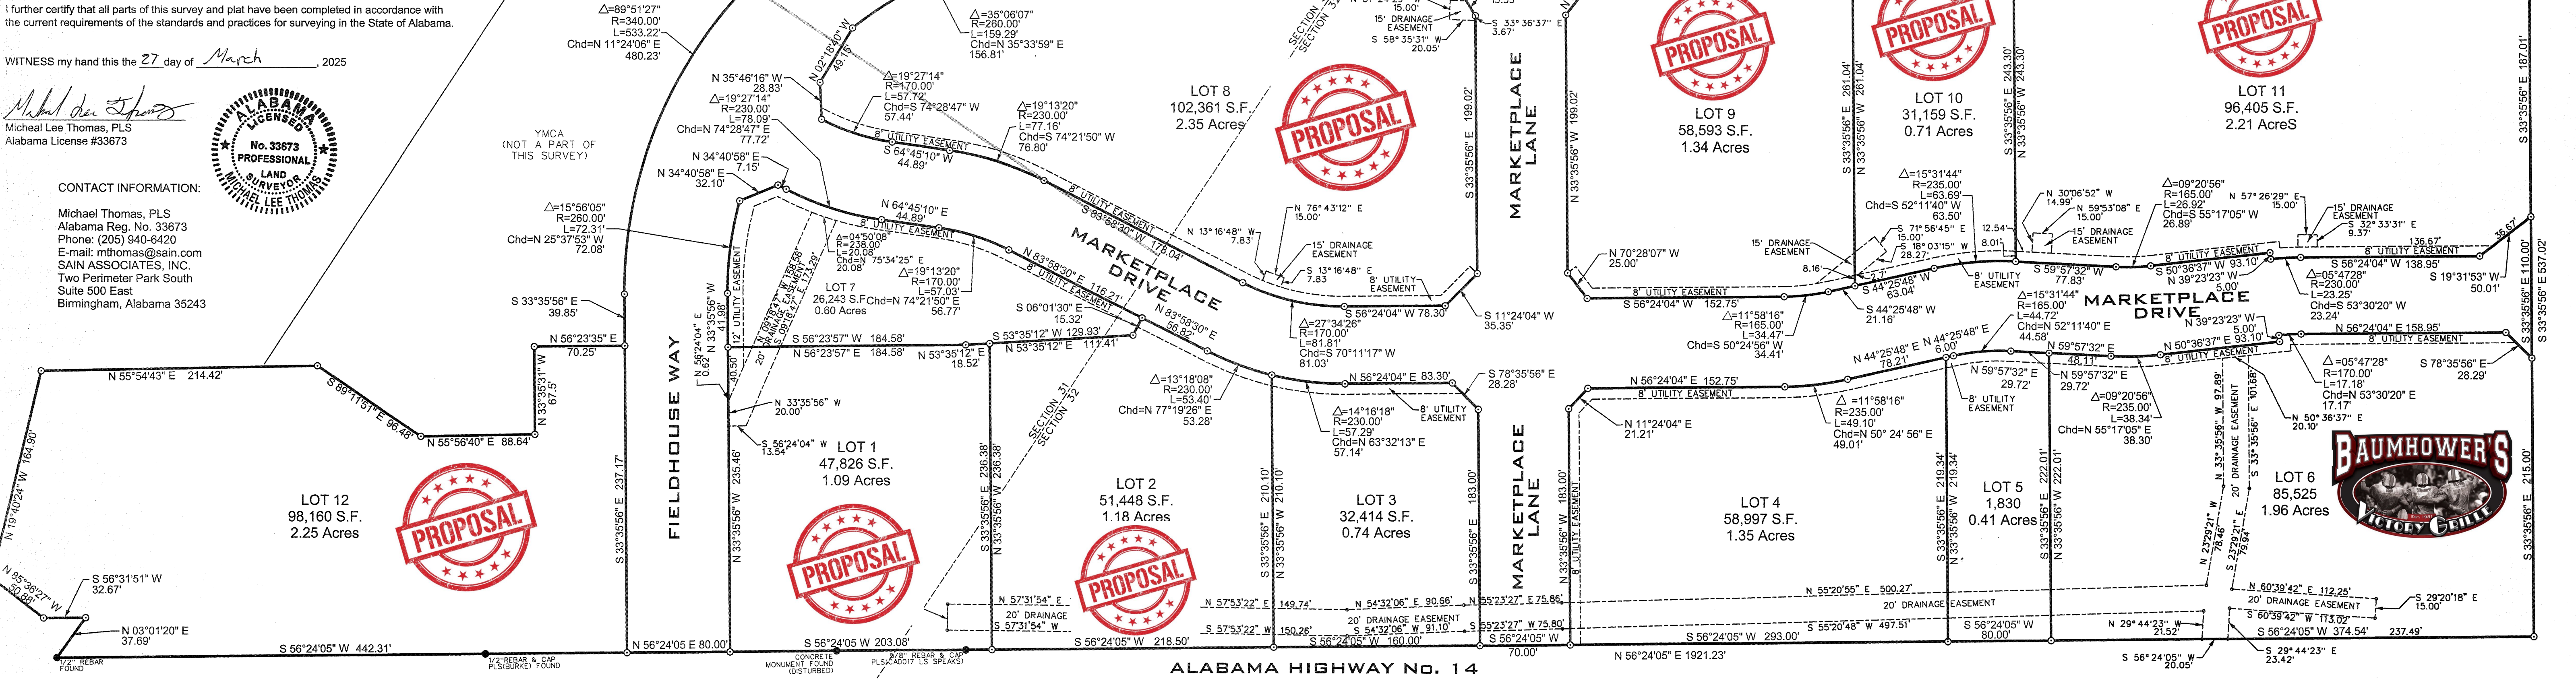

5.Declaration of Covenants, Easements and Restrictions for \_\_\_\_\_ are recorded in Deed Book: \_\_\_\_\_ at page: \_\_\_\_\_ in the Office of the Judge of Probate of Elmore County, Alabama.

6.To provide connectivity within the subdivision, the owner of each lot is required to provide each adjacent lot within the subdivision with a minimum of one access for ingress and egress. The location of the access for ingress and egress shall optimize the buildable area of each lot. No building permit shall be issued for any lot without approval by the City Engineer of the design for lot connectivity.

7.Lot 7 shall be exempt from the requirements of item 6 to provide an access for ingress and egress to Lot 2. Lot 2 is required to provide a minimum of one access for ingress and/or egress to Lot 7 at the request of the owner.

8.Lot 1 shall provide Lot 2 with access to the electrical service designated for Lot 2 located on its property. Lot 2 shall have ingress and egress over Lot 1 for the purpose of accessing, maintaining, operating, and inspecting the electrical service facilities designated for Lot 2. Any damage to improvements on Lot 1 as the result of the previous activities shall be repaired at the expense of the Lot 2 owner. Lot 2 has the right to remove from said lands any obstructions which endanger or may interfere with the efficiency of the electrical infrastructure and service facilities. Any such proposed relocations shall be submitted in writing prior to the commencement of any relocation construction efforts and subject to appropriate approval prior to the commencement of any relocation construction efforts. No buildings, structures, concrete slabs, or walls shall be placed within 10' of the electrical service facilities.

9.Lot 6 shall provide Lot 5 with access to the water, electrical, and communication services designated for Lot 5 located on its property. Lot 5 shall have ingress and egress over Lot 6's lands for the purpose of accessing, maintaining, operating, and inspecting the utility service facilities designated for Lot 5. Any damage to improvements on Lot 6 as the result of the previous activities shall be repaired at the expense of the Lot 5 owner. Lot 5 has the right to remove from said lands any obstructions which endanger or may interfere with the efficiency of the water, electrical, and communication infrastructure and service facilities. Any such proposed relocations shall be submitted in writing prior to the commencement of any relocation construction efforts and subject to appropriate approval prior to the commencement of any relocation construction efforts. No buildings, structures, concrete slabs, or walls shall be placed within 10' of the water, electrical, and communication facilities.
